

GRANTEK and the OEE ACCELERATOR

CONSULT
DESIGN
DELIVER

DELIVERING THE FOUNDATIONS OF
YOUR IGNITION MES & OEE SOLUTION

Delivering OEE and Downtime Analysis solutions that are quick to deploy, customizable for your process, and scale across the enterprise; enabling your continuous improvement journey

WHO?

- Plant Managers & Engineering Teams
- Process & discrete manufacturers
- Continuous Improvement Teams
- Digital Transformation Leaders

WHY?

- Performance insights
- Downtime analysis
- Continuous improvement enablement

HOW?

- Fast time-to-value
- Expanding the Ignition platform
- Intuitive and easy-to-use

WHY OEE?

Overall Equipment Effectiveness, or OEE, is one of the most popular metrics for measuring asset performance and manufacturing efficiencies.

OEE measures Availability, Performance, and Quality to evaluate whether an asset is running on schedule, at the desired throughput, and without producing defective products.

OEE solutions provide insights into how production systems are performing and where to focus attention in order to optimize factory output and drive operational excellence.

GRANTEK'S OEE ACCELERATOR

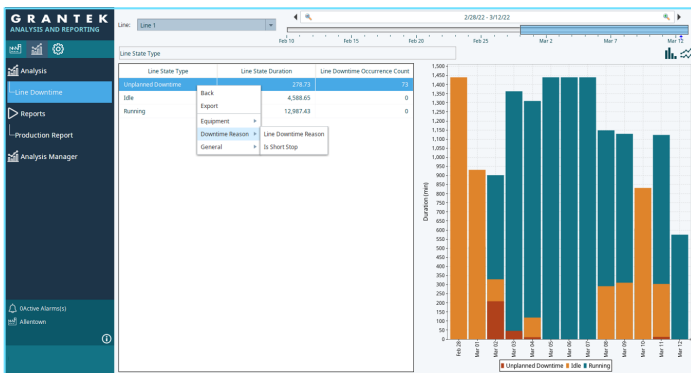

Grantek has assembled the core functionality of Sepasoft's OEE and Downtime MES module to expedite delivery of Performance Monitoring solutions on the Ignition platform. Grantek's OEE Accelerator delivers a strong foundation for Ignition MES deployments, in both Vision and Perspective, with fast time-to-value so that you get immediate results, but it is also designed for flexibility and scalability to adapt to your unique process, business case, and factory environment.

GRANTEK

OEE ACCELERATOR: COMPONENTS & FUNCTIONALITY

Grantek's OEE Accelerator is designed to maximize value out-of-the-box. These components are available in ***Vision and Perspective*** from Day 1, and can be expanded and extended to meet your needs. Below is an overview of the various components included with Grantek's OEE Accelerator.

DOWNTIME ANALYSIS

- Analyze Downtime Events over time
- Drilldown per Downtime Reason, Equipment, Production Order and Product
- Export Analysis to CSV

PRODUCTION SCHEDULER

- Manage Detailed Scheduling
- Manually import Production Orders from files
- Manually create Production Orders

LINE SCORECARD

- View Line Status in Real time for Current Production Run
- Monitor Hourly Produced Quantity vs. Target Quantity for the Current Run, Shift, Last 12 or 24 hours
- Monitor line speed for the selected period

PRODUCTION RUN MANAGER

- View Downtime Events for the line and specific Line Cell
- Edit Downtime Reasons and comments
- Manually Add Downtime Events for the line and cells

PRODUCTION REPORT

- Total Run Time
- KPI Indicators
- Line Efficiency
- Downtime Pareto Analysis

LINE EFFICIENCY DASHBOARD

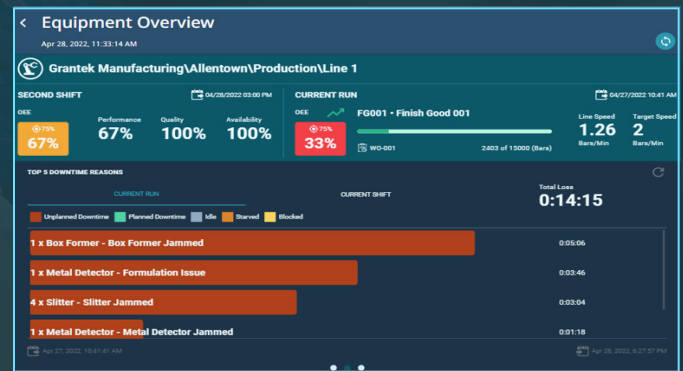

- View Line Status in Real time for Current Production Run and Current Shift
- WIP, Produced Quantities and OEE KPIs
- Monitor Total Run Time
- Monitor Actual vs. Target Production
- View Downtime Reason

PRODUCTION CONTROL

- View the current state of production lines
- View the Production Schedule
- Start and stop production runs

OEE ACCELERATOR in PERSPECTIVE

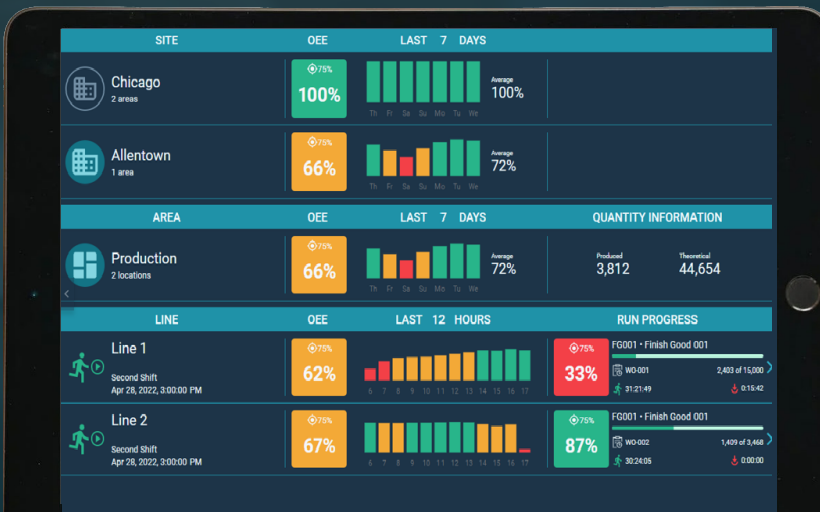

The OEE Accelerator is available in Ignition Perspective to bring OEE access to any HTML5-enabled screen on the plant floor, in your office, or on your mobile. This makes OEE data entry and analysis available to any Operator, Supervisor, or Continuous Improvement team.

LINE EFFICIENCY DASHBOARD

LINE SCORECARD

Perspective provides operators on the shopfloor with access to OEE data and allows them to control production runs from their place of work. In addition to enhanced mobility, Grantek's OEE Accelerator in Perspective enables responsive design of system screens, is browser-based making it deployable in any operating system, responds to sensor information, and enables data collection from Bluetooth devices. Ultimately, Perspective enables a faster path to value for Grantek customers.

NEW AND IMPROVED

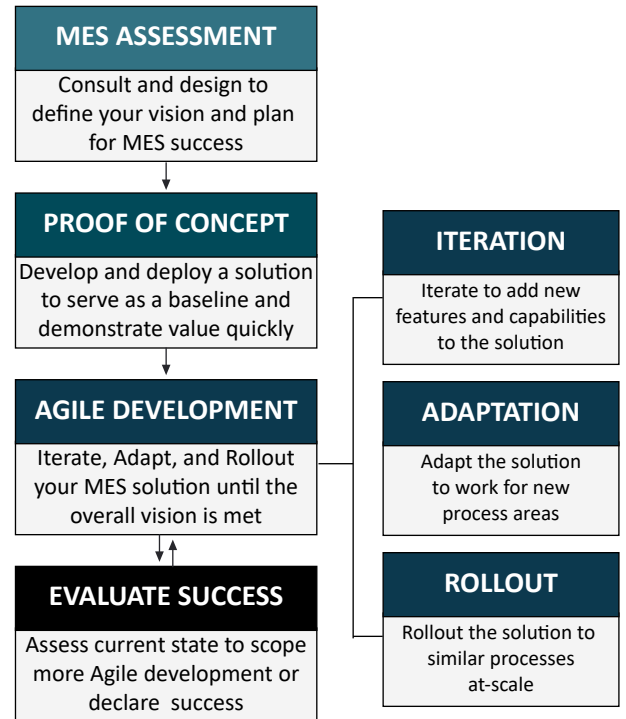

Perspective is a platform optimized specifically for mobile devices. The OEE Accelerator mobile app allows operators to monitor and control the state and performance of the production floor directly from a tablet or mobile phone.

OEE ACCELERATOR

SOLUTION VALUES & WHERE TO LEARN MORE

AGILE MES AND THE OEE ACCELERATOR

- The OEE Accelerator fits into Grantek's overall Agile MES strategy for delivering successful Smart Manufacturing solutions
- Agile MES encourages a collaborative, iterative approach to provide value to end users quickly while embracing continuous improvement opportunities
- The OEE Accelerator provides a strong foundation for Performance Monitoring solutions that can be improved, adapted, and rolled out at-scale to enable lean operations and provide universal insights

GRANTEK OVERVIEW

Grantek is a leading provider of integrated manufacturing automation services with over 40 years of experience

OUR CUSTOMERS

Our customers are among the most respected manufacturers of global brands as well as niche manufacturers

OUR TEAM

The Grantek team guarantees a manufacturing facility, line or process that has been skillfully designed, engineered and executed
