

Companies trust Grantek to address their complex, regulated, and critical operational, business, and manufacturing challenges through our dedicated team, specialized engineering expertise, local presence, and commitment to exceeding expectations.

### COMPANY CULTURE AND RECOGNITION

Grantek emphasizes a culture of commitment, teamwork, and continuous improvement. They have been recognized as a Great Place to Work® in both Canada and the United States, reflecting high employee satisfaction and a positive work environment.

### CONTROLS SYSTEM INTEGRATORS ASSOCIATION

Credential that demonstrates a reliable partner, committed to continuous improvement, with strong project management skills and framework tools, and dedication to regulated environments — with similarities to the principles of ISO 9001:2015.

### ON THE SYSTEM INTEGRATOR LIST FOR 9 CONSECUTIVE YEARS

Rates are based on the size of the organization, Quality, # of partnerships, being on the list shows signs of technical expertise, operationally sound, and trusted by global organizations.

### INDUSTRIES

# Our Solutions

## Machine Safety

TUV-certified risk assessments, safeguard design, installation, and validation per ISO 12100 and ANSI B11.0.

## OEE and MES

Performance monitoring, downtime tracking, work order management, and ERP integration on Ignition/Sepasoft to drive manufacturing efficiency.

## SCADA and Historization

Plant-wide visibility, alarm management, data collection, reporting, and sustainability metrics across all major platforms.

## Warehouse and Material Handling

ASRS controls, WCS development, conveyor automation, pallet manifest, and SAP integration.

## Label Verification

Vision-based inspection preventing recalls, ensuring regulatory compliance, and reducing retail fines.

## OT Cybersecurity

Network assessments, segmentation, monitoring, and remediation based on MITRE ATT&CK framework.

# Our Solutions

## Process Control

PLC programming, DCS implementation, and process optimization for batch, continuous, and discrete manufacturing operations across all major platforms.

## Batch Management

ISA-88 compliant batching systems with recipe management, batch reporting, CIP integration, and multi-unit coordination for consistent production.

## Legacy Migration

Assessment and migration of outdated platforms including FactoryLink, Wonderware, and obsolete PLCs to modern, supportable systems as part of a digital transformation roadmap.

## Building Automation

BAS, BMS, EPMS, and HVAC integration for manufacturing facilities and data centers, driving energy reduction, water efficiency, and sustainability compliance.

## Data Analytics and Digital Transformation

Digital transformation through historian implementation, centralized reporting, KPI dashboards, and advanced analytics using Seeq, AVEVA PI, and Ignition.

*Additional capabilities: ICS Cybersecurity Assessments | Sustainability and Energy Management | Digital Transformation | Ongoing Solution Support*

# Technology Platforms and Recognition

## Platform Expertise

*Platform-agnostic with deep expertise across leading industrial automation vendors.*

- ✓ Rockwell Automation
- ✓ Siemens
- ✓ Inductive Automation (Ignition)
- ✓ Sepasoft MES
- ✓ AVEVA
- ✓ SICK Safety Systems
- ✓ Cognex Vision
- ✓ Schneider Electric
- ✓ Seeq Analytics
- ✓ Claroty OT Security

### Premier and Enterprise Integrator

Original Premier Integrator for Inductive Automation and Sepasoft.

## Awards and Recognition

### System Integrator Giants

Ranked #13 in 2026 by Control Engineering Magazine. Nine consecutive years on the global top 80 list.

### 2023 ICC Firebrand Award Winner

Awarded by Inductive Automation for the Merck alarm management system: 100,000+ monitoring points across 60 buildings.

### ICC Discover Gallery Finalist

Four award-winning projects recognized by Inductive Automation between 2020 and 2023, including three consecutive years as a Discover Gallery Finalist.

### CSIA Certified

Certified by the Control System Integrators Association, the industry benchmark for quality and business practices.

### 01

#### We lead, not follow

We bring a proven playbook from 45+ years across F&B, Life Sciences, and Logistics. Customers ask us to tell them how to solve their problem, not the other way around.

*Tell me how to do this. You guys know. I do not.*

VP Quality, Fortune 500 Company

### 02

#### Platform agnostic at scale

Rockwell, Siemens, Schneider, Ignition, AVEVA, we deploy on whatever the customer runs. We bring multi-platform experience from 750+ sites, equipping us with the knowledge of what works best and where.

*After implementing UPC inspection, we reduced 95% of our fines from Costco, Walmart, and grocery stores.*

Quality Director, Fortune 500 Company

### 03

#### Built-in change management

Training programs, SharePoint knowledge bases, and comprehensive documentation. We embed with client teams so knowledge transfers with the systems.

*They have not seen that from any integrations company before, to offer that extensive of a support system within their own environment.*

Automation Lead, Fortune 500 Company
